

PVC - Spiralschlauch

Description:

HERZ – PVC spiral hoses are made of two layers of PVC with embedded steel spiral spring and additionally equipped with axial and radial yarn reinforcement. Tensile strength, good oil, alkaline and acid resistance, good chemical resistance, UV and ozone resistant, cadmium free, inside far to go smooth for a good flow characteristics, extremely flexible and vacuum use. Installation in confined spaces (small bend radii), and kink easily.

Application and features:

Reinforced flexible hose for medium temperature range. Especially well suited for machine and apparatus engineering. Suction and pressure hose for easy application.

Temperature range:

Ø 19mm: -20°C bis +60°C
Ø 38/60/90mm: 0°C bis +85°C

Application:

Air hose for cold air to the air supply **HERZ** heaters.

Lengths:

per meter, alternatively in greater need
 as collar/ring: Ø 19mm = 50 Meter
